

XTI Group B2B On Site Contracting

XTI Treasure Investments & Assets S.R.L.

Who we are

Mission Statement

An aerial photograph of a large-scale renewable energy facility. In the foreground, a large white wind turbine stands prominently. Behind it, a vast array of blue solar panels stretches across a flat landscape. To the right, another wind turbine is visible. The background shows a body of water and distant hills under a bright, hazy sky. The entire image is overlaid with numerous semi-transparent icons representing various aspects of sustainable energy: wind turbines, solar panels, recycling symbols, leaf motifs, and data points. Some of the visible data points include '710.10', '817.92', '49.65', '52.68', '229', '238.38', '292.76', '229.56', and '193.94'. The overall theme is clean, green energy and technological innovation.

Our Mission

Our corporate talents are focussed and accelerating the adoption of renewable energy technologies across the world to conserve the environment and provide an environmentally friendly, clean, sustainable and efficient power supply. We are committed to our customers and their needs and expectations with regard to safety and the environment while maintaining the highest quality standards in our industry.

XTI Group - Dominican Republic

Our Mission

Our corporate talents are focussed and accelerating the adoption of renewable energy technologies across the world to conserve the environment and provide an environmentally friendly, clean, sustainable and efficient power supply. We are committed to our customers and their needs and expectations with regard to safety and the environment while maintaining the highest quality standards in our industry.

XTI Group - Dominican Republic

Our Vision

A woman and a young child are standing in a field of dandelions, blowing the seeds into the air. The seeds are captured mid-air, creating a sense of movement and hope. In the background, a large array of solar panels is visible, suggesting a connection between nature and clean energy. The sky is a clear, vibrant blue.

We foster a business culture of excellence, trust and ethical collaboration to achieve our business goals.

We aim to be market leader and the employer of choice while providing the most innovative clean energy solutions to our clients.

Core Competences

MORE THAN 25 YEARS OF EXPERIENCE

Our team comprises specialists from the plant engineering project business with a wealth of expertise in the fields of power generation, transmission and distribution.

Our core competences in plant construction are primarily in the fields of engineering, project management, assembly, commissioning, operation & maintenance.

All Founders have references in the energy sector. With our expertise we are able to understand the expectations and requirements of our customers and stakeholders. The actions of the management team are shaped by the expectations of our stakeholders.

B2B On Site Contracting

A woman with long brown hair, wearing a white hard hat and a grey blazer over a blue top, is looking down at a solar panel. She is standing in a warehouse with yellow overhead cranes and metal shelving units in the background. The scene is brightly lit.

B2B On Site Contracting

Roof Top or Ground Mounted Photovoltaic Plant

Direct Cable Connection to Off Taker

No Grid Connection required (optionally)

Long Term B2B PPA (Power Purchase Agreement)

Fixed affordable Tariff

PV Plant constructed and operated by XTI

Key Framework Energy as a Service

B2B On Site Contracting

Green Energy
Lower Energy Costs
No Investment required
Enlarge Green Footprint
Sustainable Power Supply
No Asset Management Risk
Asset Ownership transferred
after PPA tenor
Predictable long term Planning
Reliable Power Supply through
Implementation of Battery Storage
incl. Energy Management System

Key Benefits

The Process

Property Assessment

Energy Consumption Assessment

PV Design and Yield Assessment

Presentation of Solution

Signing of PPA (Power Purchase Agreement)

Construction of PV Plant (Battery optionally)

Integration of PV Plant into Off Takers Power Distribution System

Energy Supply upon COD (Commercial Operation Date)

Operation and Maintenance of PV Plant by XTI

Our Target and Contribution

Changing the World's Energy Landscape

**Developing
Labor Staff**

Think Green

**Improving Environmental
Conditions**

Our Values

Corporate Culture

People are a company's most important capital, after all, our staff are the ones who are constantly contributing to our success.

We want to create a truly unique and attractive environment where our employees can rise to meet new challenges and achieve their full potential. We value their contributions and make sure that we, in turn, contribute to preserving their work-life balance. We treat our team well and pay them well - this is our top priority.

Business Ethics

XTI Group has implemented a Business Ethics Directive and set up its own compliance program.

We give our employees regular and consistent training to ensure that they always act accordingly in their daily dealings with our stakeholders, based on our Code of Conduct.

We maintain strong ties with all our stakeholders and have a keen interest in establishing long-term alliances and partnerships based on trust.

XTI Group has a strong sense of social responsibility. We are constantly on the lookout for partners and organisations that need our support to improve their circumstances. We offer them initiatives that will help them grow.

We run employee programs, cooperate with local communities and, by the very nature of our operations, contribute to improving the environment.

Our management ensures that our day-to-day business runs smoothly; we are committed to acting as a reliable partner for all our stakeholders. We have a strong focus on sustainability in all our business activities. This is key for us.
